

MTP 5 no longer globally represented by Kipp & Zonen

Dear Business relation,

From 01 January 2011 Kipp & Zonen B.V. in Delft ceased to directly represent the products of PVK ATTEX Ltd of Moscow, Russia worldwide.

This is a friendly separation for strategic reasons. We have had many years of successful co-operation and good relationship with ATTEX and they manufacture excellent products. However, we have now decided to concentrate our resources on other market areas.

Therefore, all enquiries regarding the MTP 5 should be sent directly to ATTEX. All responsibility for warranties, spares and support of their products sold by Kipp & Zonen has also transferred to the manufacturers.

Please note that the Kipp & Zonen offices in France, the USA and Singapore are directly representing the MTP 5 in their countries, but not through the headquarters in Delft and they should be contacted for new MTP 5 quotations.

The contact information of ATTEX is:

R.P.O. ATTEX Ltd.

Central Aerological Observatory

Pervomaiskaya Str.3,

Dolgoprudny

Moscow Region, 141700

Russia
