

PRODUCT SPECIFICATION STATEMENT

Kipp & Zonen guarantees that, upon shipment to the customer, all goods manufactured or supplied by the company will conform to, or exceed, the specifications for those goods published by Kipp & Zonen at the time of acceptance of the order from the customer.

The product specifications published by Kipp & Zonen are a worst case or minimum value and the individual product performance may exceed the specifications.

Due to the policies of Kipp & Zonen and its suppliers for continuous product development and improvement, it may be the case that the product delivered has enhancements in performance, features or functionality compared to the product ordered.

Kipp & Zonen reserves the right to change specifications without prior notice but this will not affect the fitness for purpose of the product.

The Quality Management System of Kipp & Zonen B.V. Delft, the Netherlands, has been certified to comply with the requirements of ISO 9001:2008 for the development, assembly, sales and delivery of sensors for the measurement of various meteorological parameters, including those related to solar radiation. Further, this certification applies to customer support and service.
